Grade scale:	540 - 600	A	480 - 539 B
	420 - 479	C	420 - 489 D
	below 420	F	

Course Policy and Important Dates: This is a proof based course designed for Math majors. The subject should be familiar to you - Calculus I and II, but approach will be quite different, as we will mostly learn how to prove things. PR: MHF3302, MAC2313, MAS3106. Tests are comprehensive. There are some partial credits for test problems but there is no curving. There are no make-up tests. In the case of a legitimate excuse (to be determined by the instructor) scores for the missed test will be substituted by the score coming from the final. Graded tests are to be retained until the end of the course. Quizzes will be given at the instructor's discretion. Also, at the instructor's discretion, some assigned homeworks can be counted as quizzes. Please inform the instructor in advance if you need to leave the class early or if you are expecting to be late. Important dates: withdrawal deadline - 10/13; last day of class - 12/1; final exam - 12/8, 10:00am-12:50pm.
