

FINITE MATH – SECTION 0006 – FALL 2006

Instructor: Tame Fowe

Phone: 407-823-1216

E-mail: tfowe@yahoo.com

Office: Room 201 (Math building)

Office Hours: Tuesday : 4.30 -5.30 pm
Thursday : 8.30-9.30 am and 4.30 -5.30 pm

Class: During each class I will address any questions you may have pertaining to the class. We will spend 35 minutes going over problems from the text, and then you will be given a 15 minute quiz. It is important that you have the homework problems ready at the beginning of class, though I will usually add some of my own.

Quizzes: Each quiz will consist of five questions worth two points each. You may use a scientific calculator. There will be a quiz given each week, and the lowest score will be dropped before your final quiz grade is calculated. There will be no make-up quizzes given.

Exam Results: After each exam I will give you back your score during the next discussion class. You may get your score earlier if you wish by visiting me during office hours, but scores cannot be communicated via e-mail or telephone.

Note: All cell phones should be turned off prior to the discussion class, and all questions and comments should be addressed to me. Any behavior that does not conform to the standards of the university may result in your removal from the class, and a zero being for the quiz.
