

MGF 1106 Finite Math Discussion Session

Instructor: John Strange

Office: MAP 350 N

E-Mail: WeirdMath@aol.com

Office Hours: Tuesday and Thursday 8:30 AM to 9:30 AM
Wednesday 9:30 AM to 10:30 AM

Quizzes: One quiz will be given every week. The quiz will usually contain 5 questions worth 2 points each for total of 10 points per quiz. Quizzes will count 17% toward your final grade.

Attendance Policy: Attendance records will be kept by quizzes taken. This will be reported to Mr. Griffiths. Excused absences are allowed only per the policy guidelines provided in the main lecture session.

Quiz Make Ups: There will be no make up quizzes. Quizzes not taken will result in a zero assigned for that quiz with the following exception. Excused absences (properly documented and per main lecture guidelines) will result in a quiz grade given equal to average of all other quizzes.

Class Format: In the discussion section, we will review material covered in the previous week's lecture sessions. Work the problems at the end of each chapter prior to class. Questions are encouraged and example problems will be worked. Near the end of class you will be given the weekly quiz to take.
